COURSES OF STUDY.

THE FOLLOWING COURSES OF STUDY ARE NOW ESTABLISHED, AND OTHERS
WILL BE ADDED AS MAY BE REQUIRED.

COLLEGE COURSE.

For admission to this course, pupils must pass a thorough examination in the common English branches, and also in the studies of the Preparatory Course or their equivalent.

The degree of B. A. is given to graduates from this course.

FRESHMAN CLASS.

GREEK—Grammar, *Hadley*; First Lessons, *Boise*; Xenophon's Anabasis, Three Books, *Boise*.

LATIN—Cicero, On Old Age and Friendship, *Chase* and *Stuart*; Livy, History, *Chase* and *Stuart*; Latin Prose, *Jones*.

MATHEMATICS—Algebra, *Peck*; Plane Geometry, *Bradbury*.

SOPHOMORE CLASS.

GREEK—Xenophon's Anabasis, Three Books, *Boise*; Xenophon's Memorabilia, *Winans*; Homer's Odyssey, *Merry*.

LATIN—Livy, History, *Chase* and *Stuart*; Tacitus, Germany and Agricola, *Greenough*; Horace, Odes, *Chase* and *Stuart*.

MATHEMATICS—Solid and Spherical Geometry, *Bradbury*; Trigonometry and Surveying, *Bradbury*.

ENGLISH—Literature, Rhetoric, *Kellogg*.

JUNIOR CLASS.

GREEK—Olynthiacs and Phillipics of Demosthenes, *Tyler*; Testament; Gorgias of Plato, *Woolsey*.

LATIN—Cicero, Tusculan Disputations, *Chase* and *Stuart*.

SCIENCE—Natural Philosophy, *Peck's Ganot*; Astronomy, *Lockyer*; Chemistry, *Steele*; Geology, *Dana*.

SENIOR CLASS.

MENTAL PHILOSOPHY—*Haven*.

LOGIC—*Jevons*.

POLITICAL ECONOMY—*Wayland*.

MORAL PHILOSOPHY—*Fairchild*.

EVIDENCES OF CHRISTIANITY—*Hopkins*.

HISTORY—History of Civilization, *Guizot*.

NATURAL THEOLOGY—*Chadbourne*.

GERMAN, *Whitney's Grammar and Reader*, OR CIVIL LIBERTY AND LECTURES
ON ART.

COLLEGE PREPARATORY COURSE.

For admission to this course, a thorough examination must be passed in Spelling, Geography, United States History, Grammar, and Arithmetic as far as Square Root.

JUNIOR CLASS.

GENERAL HOUSE-KEEPING FOR GIRLS.

MECHANICAL COURSE.

At present this course covers three years; two of wood-working and one of metal-working. It is required of all boys above the third grade, in addition to their regular studies in other courses. Six and a half hours each week are given to this work.

It is the aim, during this time, to teach the use of tools and the principles of wood-working and metal-working. Those having finished this course who have the ability and the desire to become finished workmen in some one of the trades, will have the opportunity to do so.

FIRST YEAR.

The use and care of the common wood-working tools, as the hammer, saw, plane, try-square, gauge, rule, chisel, mallet, bit and brace, bevel, steel square, drawknife, dividers, screwdriver.

The general principles of wood-working, as sawing, planing, marking, chamfering, boring, mortising, tenoning, halving, grooving, matching, mitering, beveling, dovetailing, gluing, steaming and bending, driving nails and screws, sandpapering, finishing.

Working drawings with steel square and pencil. Measuring lumber.

SECOND YEAR.

Further use of tools and some application of principles in construction.
The use of the wood turning lathe and the jig saw.
First step in pattern making.
Glazing.
Drawing with instruments.

THIRD YEAR.

Metal working, beginning with the use of blacksmith's tools and forge.

GRAMMAR SCHOOL COURSE.

The studies of the first three years are taught in the Primary School.

FIRST YEAR.

Reading Charts, First Reader, Number Lessons, Object Lessons (Place, Direction, Plants), Drawing, Writing with pencils, Singing.

SECOND YEAR.

Second Reader, Oral Spelling, Number Lessons, Object Lessons, (Animals, Land and Water), Drawing, Writing with pencils, Singing.

THIRD YEAR.

Third Reader begun, Primary Arithmetic, Geography of city or county and State, Globe Lessons, Dictation Exercises, Copy Book No. 1, Spelling, Singing.

FOURTH YEAR.

(Fifth Grade.)

Third Reader and Supplementary Reading, Intermediate Arithmetic through Fractions, Primary Geography (text-book), Language Lessons (Knox or Powell), Written Spelling, Copy-Books Nos. 2 and 3, Music.

FIFTH YEAR.

(Fourth Grade.)

Fourth Reader begun, Intermediate Arithmetic completed, Larger Geography begun, (U. S. and N. A.), Language Lessons, Spelling, Copy-Books Nos. 3 and 4, Music.

SIXTH YEAR.

(Third Grade.)

Fourth Reader, Practical Arithmetic through Fractions, Geography of S. A. and Europe, Elementary Grammar (Reed and Kellogg), Familiar Science, Writing, Music.

SEVENTH YEAR.

(Second Grade.)

Fifth Reader, Practical Arithmetic through Percentage, Mental Arithmetic, Grammar, Geography completed, Music.

EIGHTH YEAR.

(First Grade.)

Reading, Practical Arithmetic completed, Grammar and Composition, U. S. History, Alcohol and Hygiene (Coleman), Music.

Instruction in sewing is given to all girls.

Weekly Bible Lessons and Composition Work throughout the course.

Written examinations are required in the studies of all the courses at the close of the Fall and Winter Terms, and oral examinations annually during the three days preceding Commencement; also written examinations are required frequently in common English branches, from all students above the Grammar School Course.

PRIMARY SCHOOL.

(See Grammar School Course.)

CALENDAR.

EXAMINATION FOR ADMISSION, October 5, 1887.

FALL TERM begins Wednesday, October 5, 1887.

VACATION DAYS, Thanksgiving, Christmas, New Years and February 22.

BACCALAUREATE SERMON, Sunday, May 27, 1888.

PUBLIC EXAMINATIONS, May 28, 29 and 30, 1888.

ANNUAL MEETING OF THE TRUSTEES, Wednesday, May 30, 1888.

COMMENCEMENT DAY, Thursday, May 31, 1888.

ANNUAL MEETING OF THE ALUMNI, May 31, 1888.

GENERAL INFORMATION.

MEMBERSHIP.

For membership in the Institution a person must have a good moral character, and must sign a pledge to abstain from the use of all intoxicating drinks and tobacco in every form, while a member of the school.

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The Institution has had a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained.

Pupils from other schools must present certificates of honorable dismissal.

Applications for admission should be made at least a month before the beginning of the school year.

Pupils should enter the first day of the school year, that they may be immediately classified, and thus lose no time.

Any who cannot be here the first day, should so time their coming as to get here on Wednesday, as Thursday will be the day for examination for admission.

Students lose their membership when absent one month. During vacation, as well as during term time, students are held amenable to the authority of the school.

Those who have not a fixed purpose to improve their time, and an earnest desire to fit themselves for usefulness, should not seek admission, as the presence of such is not tolerated.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

EXPENSES.

Board, including furnished rooms, fuel, lights, and washing, per month.	\$9 00
Tuition in College Course	" 2 00
Tuition in Primary School.	" 50
Tuition in all other Courses	" 1 00
Instruction in Instrumental Music	" 1 00
Use of Instrument one hour per day.	" 1 00

All payments are due in advance on the first day of each calendar month. Fractions of a month are charged at a somewhat higher rate.

All pupils are required to work for the institution at least one hour a day. This requirement makes the above low charges possible.

Remittances in payment of bills should be made by money-orders, drafts, in registered letters, or by express.

Make money-orders and drafts payable, during 1887-88, to Thomas N. Chase, and address all moneys to him. Receipts will be promptly returned.

STUDENT AID.

Some students have been aided during the past year by contributions from the friends of popular education. It is expected that this help will be continued.

The income of the King, the Cassedy, the Dodge, the Hastings, the Boyd, and the Plainfield Scholarship Funds, is now available.

Persons should not come expecting to receive aid until they have applied for it and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and, as far as possible, what pursuit they intend to follow.

It is expected that those who are aided, will, when able, return the amount to aid others.

TEACHING IN VACATION.

Nearly all of those who are sufficiently advanced in scholarship, aid themselves by teaching. The demand for teachers is usually in excess of the supply.

County Superintendents of Schools, and others desiring teachers from this Institution, will find it for their interest to arrange their schools, if possible, so as to include its summer vacation, viz: the months of June, July, August, and September. Communications from all such officers will receive prompt attention.

Students of this Institution, desiring to teach, will be furnished certificates of membership and standing. As a means of protection against imposition, applicants for schools claiming to be from Atlanta University should be required to exhibit such certificates.

It is expected that a majority of the students will engage in teaching, and instruction in all departments is adapted to that end. Earnest efforts are made to induce young men to prepare for the ministry.

GRAVES LIBRARY.

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains over six thousand

volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, which insures its steady growth.

In connection with the Library is a Reading Room, well supplied with the leading papers and periodicals of the country, and the students have free access to both.

APPARATUS.

A good beginning has been made in procuring Philosophical Apparatus. Enough has been obtained for illustrating some of the simpler principles of Natural Science, and also instruments for Surveying and Engineering purposes.

An excellent telescope and microscope have been secured, largely by the gift of friends.

MUSIC.

Facilities for instruction in both Vocal and Instrumental Music are ample. The elements of Vocal Music are taught without extra charge, by the Tonic Sol-fa Method.

For practice in Instrumental Music, there are four organs and two pianos. (See expenses.)

INDUSTRIAL TRAINING.

The boys of the College, College Preparatory and Normal courses, and the first two grades of the Grammar School course, are taught the use of tools. (See Mechanical Course, p. 22, and Knowles Industrial Building, p. 29.)

The boys are also taught some of the principles of farming and gardening. Attention is given to the raising and care of stock, to the raising of fodder crops, their comparative value and fitness for this soil and climate. The cultivation of vegetables is encouraged by competition and prizes for the best results.

The girls are taught various branches of household science, such as plain sewing, dressmaking, cooking, and nursing the sick, under experienced teachers.

An outfit of type and other printing material has been purchased for instruction in printing, and additions will be made as our funds allow.

GOVERNMENT.

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a fixed purpose to improve his time, and an earnest desire to fit himself for usefulness, parents will be requested to take him home.

Suspension from school is resorted to when other means of correction fail.

When students are exposing themselves to permanent harm, it is expected that high-minded individuals will be governed by the dictates of conscience and common sense, rather than by any false sense of honor, in regard to disclosing the facts to the proper authority.

MISCELLANEOUS SUGGESTIONS.

Each pupil should bring a Bible. It is needed for private reading, for the Sunday-school and for the weekly Bible lesson.

It is well to bring the text-books formerly used.

All should be provided with *warm* clothing.

Young women must have *rubbers* and *waterproofs*.

The use of expensive and showy dress is not permitted. Silks, velvets and jewelry worn by school girls is indicative neither of good taste nor good sense. Prints, gingham and plain worsteds neatly made, and colored undershirts are the most approved wear. White dresses are not permissible—the washing of them being too expensive.

Parents will do well not to send clothing unless the request for it is endorsed by the Matron. No extra dress is required for the close of school.

Experience has taught that much evil comes from pupils receiving food or large quantities of fruit or candy from home. They are, therefore, not allowed to receive it. *Friends will please not send it.*

Letters should be directed to Atlanta University, Atlanta, Ga.

Students who do not board at their homes are not allowed to board out of the Institution, except by special permission.

Boarders are expected to furnish their own towels.

Keeping or using fire arms on the premises is forbidden.

During term-time, students shall not, without permission, actively participate in any political or mass meeting.

Students from a distance should arrange their journey so as not to arrive on the Sabbath, as they will not be admitted on that day.

When going away, they should apply for dismissal in season to arrive at home before the Sabbath.

Students are not allowed to make visits on the Sabbath, and their friends are earnestly requested not to call upon them on that day.

The Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Among the appropriate means for securing such results, the Sabbath, with its religious services, is most important. The excitement of visiting prevents, in a great measure, the benefit that may be derived from a proper observance of the day.

It is desired to make the school, as far as possible, a *home* for those who attend. Not only their intellectual, but also their physical, social, moral and religious culture receive careful attention.

BUILDINGS.

The buildings are situated on high ground in the western part of the city, and are surrounded by about sixty acres of land belonging to the Institution.

DORMITORIES.—During the summer of 1869 a plain, four storied, brick building was erected, containing sleeping rooms for about forty pupils, and also a parlor, dining room, kitchen, etc. It was designed for girls' dormitory, but, during the first year, furnished all accommodations, both school and boarding, for boys and girls. In August of 1870 another building of the same style, but larger, containing sleeping rooms for about sixty boys, besides temporary school-rooms, was completed. In the summer of 1871 this building was enlarged by a wing, providing rooms for about forty additional pupils, and other school-rooms. In the summer of 1880, a portion of the gift of Mrs. Stone, of Malden, Mass., was used in erecting a wing to the first named building. This wing provides for fifty additional pupils, and has a large study hall.

In the summer of 1884 large rooms for the accommodation of the cooking classes and for other purposes, were added to this building.

STONE HALL.—This building, erected in 1882, stands between the two dormitories, and is the gift of the late Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel and library, the school-room, recitation and lecture rooms for the more advanced students; the philosophical and chemical laboratory, offices, etc. This building and the two dormitories are heated by steam from one large engine.

KNOWLES INDUSTRIAL BUILDING.—This building, erected in 1884, is for the use of the Mechanical Department. It is a memorial of

the late Mr. L. J. Knowles, Worcester, Mass., his widow having appropriated from his estate \$6,000 for its erection.

The building is of brick, one hundred by forty-four feet, and three stories high. One room, forty by fifty feet, is furnished with eighteen cabinet benches, each fitted out with the following tools: Rip saw, cut off saw, panel saw, back saw, compass saw, claw hammer, hatchet, mallet, jack plane, jointing plane, smoothing plane, block plane, four paring chisels, two mortising chisels, six bits and countersinks, bit brace, rule, steel square, try square, bevel, dividers, gauge, draw knife, spoke shave, screw driver, brad awl, nail-set, oil stone and oil can.

In another room are twelve wood turning lathes, run by steam power. More machinery has been added the past year for wood work. An addition for a forge room has recently been erected, and twelve forges and anvils have been purchased.

Other contributors toward the building and its furnishing are Mr. F. C. Sessions, of Columbus, O., \$700.00; the Slater Fund, \$900.00; a friend in New York, and friends in Massachusetts.

THE BARN.—A barn erected in 1882, forty by sixty feet, with cellar the same size, furnishes facilities for the development of the farm work of the Institution.

PROJECTED BUILDINGS.—Efforts are being made to raise money for a Cottage for the Housekeeping School, and also for a building for the Grammar School, which may give greater advantages as a practice school for the Normal Department.

FUNDS.

The school being almost entirely without endowments, is dependent upon the American Missionary Association for all support not derived from other sources.

The Legislature of Georgia, in 1870, appropriated to this school \$8,000. The same amount was received in 1871 and in 1873. In 1874 a bill was almost unanimously passed making an annual appropriation of \$8,000. The bill was entitled "An act equitably to adjust the claims of the colored people to a share of the Agricultural Land Scrip." It made the appropriation on condition that the Board of Visitors of the University of Georgia should also visit this school; that the money should not be paid by the Governor till a commissioner of three members of the Faculty of the University of Georgia had approved the plan of the Trustees for the expenditure of the money, and that the school should educate, free of charge for tuition, one pupil for every member of the House of Representatives, to be nominated by the members. The

Constitutional Convention of 1877 recognized the constitutionality of such legislation.

The Trustees of the Slater Fund have appropriated \$1,400 a year.

The late Mr. Tuthill King, of Chicago, founded the King Scholarship Fund of five thousand dollars.

Mr. J. H. Cassedy, of New York, has founded the Cassedy Scholarship Fund of five thousand dollars.

The late Hon. Wm. E. Dodge, of New York, founded the Dodge Scholarship Fund of five thousand dollars.

A friend has founded the Hastings Scholarship Fund of one thousand dollars.

The late Mrs. Sarah C. Boyd, of Bradford, Mass., founded the Falcon Boyd Scholarship Fund of five hundred dollars.

The Plainfield Scholarship Fund consists of three hundred dollars, and the Garfield Scholarship Fund, now being raised, has reached the sum of \$541.78.

WANTS.

Our most pressing needs at present are the following:

Donations for Student aid.

Donations for increased current expenses incident to the enlargement and improvement of our work.

Donations for additional buildings.

Donations for iron-working machinery.

Donations for printing press.

Endowment of professors' chairs.

An endowment of at least one hundred thousand dollars for current expenses.

THE WORK OF OUR PUPILS.

Nearly all the graduates and many others who have left before finishing their course, are engaged in teaching during a part or all of the year. Besides these, during the four months of the summer vacation, a large number of students engage in teaching, and it is estimated that over ten thousand children in Georgia are taught, annually, by those who have been connected with the Institution.

REPORT OF THE BOARD OF VISITORS.

To the Board of Visitors:

The special committee appointed by your honorable body to attend the annual examinations of the Atlanta Colored University, ask leave to submit the following report:

That institution founded by the American Missionary Society for the higher education of the colored people is now in the eighteenth year of its corporate existence. During that period it has acquired a vested capital in lands, buildings, library, and valuable appurtenances fairly estimated at \$200,000. It has, besides, at the present time a balance of \$2,500 in its treasury. This financial exhibit is creditable to its official management and gratifying to its friends of both races.

The Faculty of the Institution consists of nineteen teachers, and during the last scholastic year 291 pupils were enrolled in its various departments. Its annual revenue is derived from the State appropriation of \$8,000, supplemented by the donation of the American Missionary Society of \$3,000, and a donation from the Slater fund of \$1,400. In addition to this, it has received individual and congregational contributions (chiefly from New England) amounting to more than \$7,000. The aggregate of these several amounts is but little short of \$20,000. It is proper to remark that the receipts from board and tuition of pupils are ample for the current expenses of the boarding department and the contingent expenses of the school.

In regard to the strictly literary exercises of the late commencement, we beg to state that only one day was devoted to text-book examinations. These embraced Greek (Anabasis), Algebra, Botany (analysis), a temperance manual, Latin (Virgil) and Astronomy. The examinations were oral, and, as will be seen, the curriculum was below the common college standard.

Your committee was favorably impressed with the industrial departments of the university. The domestic arts of cooking, sewing, and dress-making are taught by competent instructors. Gardening and farming are closely looked after by a very capable and trustworthy agriculturist, Mr. H. M. Sessions. The results achieved in this direction, are eminently satisfactory. In the mechanic arts, including carpentry and wood-turning, very gratifying progress has been made under the direction of Mr. Tucker. With better equipments, we have the germ of a technological school that will be a blessing to the State.

Another feature that deserves special mention is the Normal department. Your committee was afforded a fair opportunity of witnessing the method of teaching adopted by the professors. We are ad-

sed and take pleasure in saying that the graduates of this department are in good favor with the State School Commissioner, Dr. Orr, and with many of our County School Commissioners. They seem to be doing efficient work in quite a number of our public schools.

The closing exercises of the commencement, including essays and orations, with hardly an exception, were satisfactory to the large audience which attended them. We were pleased to note the conspicuous absence of anything that savored of political propagandism and a wise discretion in regard to the difficulties of the race problem. But we most emphatically disapprove of the seditious sentiments uttered in the alumni address of the previous day. We have reason to believe that the officers of the Institution disapprove of the utterance of such sentiments.

As respects the discipline of the university, it claims to be mild, but firm, and is administered with strict impartiality. The result is neatness in apparel, cleanliness in person, respect for the rights of others, and a becoming deference towards their instructors. They are distinctly taught that labor is honorable, temperance a virtue, and religion a duty. The corps of instructors exhibit a commendable earnestness in the prosecution of their arduous labors. Believing as we do that education is not only the chief defense of nations, but the parent of individual thrift and the basis of general prosperity, we commend this institution to the continued fostering care of the legislature.

(Signed.)
